

INVESTMENT OBJECTIVE

The Fund aims to preserve capital and generate income by investing in low-risk fixed income securities with a portfolio weighted average life of not more than one (1) year.

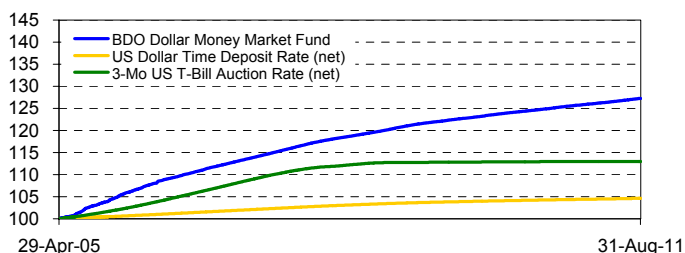

CLIENT SUITABILITY

The Fund is suitable for risk-averse individual and corporate investors who are looking for safe and liquid investments with yields relatively higher than those of US dollar time deposit accounts. In order to minimize risks and maximize earning potential, participants/trustors are recommended to stay invested in the Fund for at least six (6) months.

ALLOWABLE / PROSPECTIVE INVESTMENTS

The following are the investment outlets where the Trustee may invest the Fund in, depending on their availability or other market circumstances: Deposits in the trustee's bank or in other banks, securities issued or guaranteed by the Philippine Government or the BSP, tradable securities issued by any supranational entity, exchange-listed fixed income securities, collective investment plans of the trustee/other trustees and such other tradable investment outlets/categories allowed for UITFs by BSP and determined by the Trustee's Trust Committee as suitable for the Fund.

FUND MANAGER'S STRATEGY

The allocation of the Fund to corporate notes is now down to 3.9% from last month's 9.17% after the maturity of the Megaworld notes last August 11. The proceeds of the maturity were eventually placed as time deposits with other banks still offering high dollar time deposit rates. The high allocation to short-term time deposits shielded the fund from marked-to-market losses during this volatile period.
