

INVESTMENT OBJECTIVE

The Fund aims to preserve capital and generate income by investing in low-risk fixed income securities with a portfolio weighted average life of not more than one (1) year.

CLIENT SUITABILITY

The Fund is suitable for individual and corporate investors with moderate risk appetite and who are looking for safe and liquid investments with yields relatively higher than those of US Dollar time deposit accounts. In order to minimize risks and maximize earning potential, participants/trustors are recommended to stay invested in the Fund for at least six (6) months.

ALLOWABLE / PROSPECTIVE INVESTMENTS

The following are the investment outlets where the Trustee may invest the Fund in, depending on their availability or other market circumstances: Deposits in the trustee's bank or in other banks, securities issued or guaranteed by the Philippine Government or the BSP, tradable securities issued by any supranational entity, exchange-listed fixed income securities, collective investment plans of the trustee/other trustees and such other tradable investment outlets/categories allowed for UITFs by BSP and determined by the Trustee's Trust Committee as suitable for the Fund. The Fund may also avail itself of financial derivative instruments solely for the purpose of hedging risk exposures, subject to the guidelines set by the BSP for such activities and likewise duly approved by the Trustee's Trust Committee.

FUND MANAGER'S STRATEGY

Dollar time deposit rates have stabilized for the month of April as most banks have finished their window-dressing activity. Fortunately, the Fund did not have a lot of maturities as the Fund Manager decided to book longer tenors on the time deposits to take advantage of the higher yield in the previous months. The Fund Manager maintained duration at .42 for the stability of the fund.
