OTHER DISCLOSURES

RISK FACTORS RELATED TO THE TARGET FUND

The following are the principal risks of investing in the Target Fund:

General Investment Risk. The value of and income from investments can go down as well as up and an investor may not get back the amount he invests.

Market Risk. The value of a particular investment may change in a way which may be detrimental to the Target Fund's interests.

Equity Risk. The value of the equities and equity-related securities can be affected by a number of factors including the activities and results of the issuer, general and regional economies, market conditions and broader economic and political developments.

Liquidity Risk. Liquidity risk exists when a particular instrument is difficult to purchase or sell. If an investment transaction is particularly large or if the relevant market is illiquid, it may not be possible to initiate a transaction or liquidate a position at an advantageous price, or at all.

Currency Risk. The Target Fund's performance may be adversely affected by variations in the exchange rates between the base currency of the Target Fund and the currencies to which the Target Fund is exposed.

Settlement Risk. Delays in settlement could result in temporary periods during which a portion of the assets of the Target Fund is uninvested and a limited return or no return is earned thereon. This could cause missed investment opportunities and/or losses to the Target Fund.

Credit Risk and Counterparty Risk. The Company on behalf of the Target Fund may enter into transactions, which will expose the Target Fund to the credit of its counterparties or the risk that the counterparties may default on their obligations.

Active Management Risk. The Target Fund's assets will be actively managed based on the expertise of its Investment Manager. There is no guarantee that the Target Fund's investment objective will be achieved based on the investments selected.

Environmental, Social and Governance (ESG) and Integration of Sustainability Risk. The Target Fund intends to invest in securities of issuers that manage their ESG exposures better relative to their peers. The Target Fund may perform differently to other funds, including underperforming other funds that do not seek to invest in securities of issuers based on their ESG ratings.

General Derivatives and Securities Financing Transactions Risk. The use of derivatives and securities financing transactions may result in greater returns but may entail greater risk for an investment. Investing in a derivative instrument could cause the Target Fund to lose more than the principal amount invested.

Efficient Portfolio Management (EPM) Risk. The Company on behalf of the Target Fund may employ techniques and instruments relating to financial instruments in which it invests for efficient portfolio management purposes. Investing in a derivative instrument could cause the Target Fund to lose more than the principal amount.

Correlation Risk. The prices of financial derivative instruments may be imperfectly correlated to the prices of the underlying securities. The prices of exchange traded financial derivative instruments may also be subject to changes in price due to supply and demand factors.

Collateral Risk. Collateral or margin may be passed by the Target Fund to a counterparty or broker. Assets deposited as collateral or margin with brokers may not be held in segregated accounts by the brokers and may therefore become available to the creditors of such brokers in the event of their insolvency or bankruptcy.

Securities Lending Risk. The Target Fund may be exposed to the risk of the borrower defaulting on its obligation to return the securities at the end of the loan period and of being unable to sell the collateral provided to it if the borrower defaults.

Legal Risk. The Company must comply with regulatory constraints or changes in the laws affecting it or the Target Fund, which might require a change in the investment policy and objectives followed by the Target Fund.

SWITCHING OF THE TARGET FUNDS

•The Trustee shall have the authority to switch Target Fund in the event of a material change in the Target Fund and as the circumstances warrant including reasons such as: 1) Change in the objective, investment style or risk profile of the current Target Fund; 2) Resignation of fund managers or portfolio management team of the Target Fund; 3) Closure of the Target Fund or its maximum AUM capacity has been reached; 4) Prolonged suspension of subscription/redemption to/from the Target Fund; 5) Change in the Target Fund's fees that will significantly affect the total expense ratio of the Fund; 6) Regulatory change in the jurisdiction where the Target Fund is domiciled that would significantly affect the Target Fund's operations; 7) Significant legal disputes; 8) Market Conditions which, in the reasonable opinion of the Trustee, warrant a change in Target Fund; 9) as well as when, in the opinion of the Trustee, the Target Fund has been consistently underperforming vis-a-vis expectations. In case of such switching, the Trustee shall notify the Participants by way of direct written notice and through the form of notices such as: 1) electronic mail; 2) notices posted in the premises of the Trustee and its branches; 3) notification in the Trustee's website. Such notice shall include the ground for the switching as well as the estimated costs to be incurred by the Fund for the switching.

•Switching of a target fund due to a change in the Target Fund's investment objectives shall be accompanied by a change in the Fund's Declaration of Trust (DOT). No change shall be implemented within thirty (30) calendar days from the initial notification. The switching of the Target Fund will be conducted with due diligence and with the approval of the Trust Committee.

Cooling-Off Period – Subject to the exemptions under BSP regulations, a Participant/Trustor shall be entitled to cancel his/its initial subscription, without penalty, upon formal notice to the Trustee within a period of two (2) banking days immediately following the signing of the Omnibus Participating Trust Agreement of BDO UITFs.
