MANAGEMENT'S DISCUSSION & ANALYSIS

I. Balance Sheet – March 2008 vs. December 2007

- Cash and Other Cash Items was reduced by 23% to P14.184B to maximize earnings on reserve assets. Furthermore, the year-end 2007 level was unusually high due to cash deposits by clients, from sales generated during the Christmas season.
- Due from BSP account accordingly went up by 11% to P54.807B, coming from the Bank's cash account
- Due from Other Banks declined by 37% to P12.994B due to lower levels of foreign currency denominated placements with correspondent banks.
- Investment Securities was steadfast at P164.577B as the 12% increase in Available-for-Sale Securities (AFS) was offset by a 39% reduction in Financial Assets at Fair Value Through Profit or Loss (FVPL).
- Net Loans and Other Receivables grew by 5% to P326.029B due to a 7% increase in gross receivables from customers as the Bank continued to expand its corporate and consumer loan portfolios.
- Bank Premises went up by 6% to P12.119B owing to expenditures related to the conversion of former EPCI branches as well as investments in new equipment in anticipation of higher business volumes.
- Other Resources rose by 13% to P17.829B on account of higher levels of clearing items, floats and miscellaneous assets due to higher volume of transactions.
- Deposit Liabilities grew 4% to P463.790B due to continued deposit marketing efforts.
- Bills Payable, on the other hand, was lower by 8% to P48.277B owing to the maturities of foreign borrowings.
- Capital Funds went down by 5% to P57.753B, despite the Bank's profit for the first quarter of the year. The decline is attributable to cash dividend payable and lower unrealized gain on AFS Securities as of the first quarter vis-à-vis year-end 2007.

II. Balance Sheet – March 2008 vs. March 2007 (Pro-forma)

- Cash and Other Cash Items increased by 40% on account of higher levels of checks and other cash items as of cut-off date.
- Due from BSP was reduced by 10% as the Bank reallocated excess liquidity to higher- yielding earning assets.
- Due from Other Banks declined by 38%, owing to lower levels of foreign currency denominated placements and working balances with foreign banks.
- Investment Securities inched up 1% as a 70% decline in FVPL was compensated by a 13% and a 48% increase in AFS Securities and HTM Securities, respectively, as the Bank rebalanced its securities portfolio.
- Net Loans and Other Receivables rose by 7% despite a 53% and 68% decline in Interbank Loans and Securities Purchased Under Reverse Repurchase Agreements, respectively. Gross customer receivables grew by 18% year-on-year from aggressive loan marketing efforts.
- Bank Premises went up by 6% on account of expenses related to EPCI branch conversions and investments in new equipment.
- Equity Investments dropped by 21% to P1.731B on account of additional allowance for impairment and accounting adjustments on certain equity investments.
