6.5 Why did the Bank terminate its Global Depositary Receipts (GDR) Program?

The Bank established its GDR Program to provide an alternative vehicle for foreign investors to invest in BDO shares. GDRs representing BDO shares (with each GDR representing twenty Ordinary BDO shares, i.e., 1:20 ratio) were listed at the London Stock Exchange (LSE) beginning 26 January 2006, with The Bank of New York Mellon (BNY Mellon) serving as Depositary Bank.

Given the low trading activity for GDRs as well as the increase in float levels since 2006 when the program was established, BDO decided to terminate the GDR program. BNY Mellon, as Depositary, subsequently received a Notice of Termination from BDO to terminate the GDR facility effective 13 May 2013.

With the termination of the program, BNY Mellon sold all remaining deposited securities representing the outstanding GDRs of BDO. On 18 June 2013, the remaining GDR holders were mandated to surrender their GDRs to BNY Mellon for cancellation and exchange in order to receive the cash proceeds from the sale of the deposited securities as follows:

Gross Rate per Depositary Share:	USD 44.899278
Cancellation Fee :	<u>USD 0.050000</u>
Net Rate per Depositary Share :	USD 44.849280

The cash distribution by BNY Mellon to the remaining DR holders effectively completed the DR termination process. Subsequently, the GDRs were delisted from the London Stock Exchange.

8.1 What was the impact of the Rights Offer on BDO?

BDO raised a total of ₱60.0 billion (equivalent to USD1.2 billion) in a 1:5.095 stock rights offer completed in January 2017, considered as the largest equity capital markets transaction by a Philippine corporate entity to-date and surpassing the Bank's earlier ₱43.5 billion SRO in 2012.

This will allow the Bank to support its medium-term targets and provide a comfortable buffer over higher minimum capital requirements with the staggered implementation of the Domestic Systemically Important Bank (DSIB) surcharge.

8.2 Why did the Bank raise capital through a rights offer?

A rights offer is one of the important sources of new equity funding for publicly listed companies. It involves the issuance of new shares for cash to existing shareholders, in proportion to their existing holdings.

Further, a rights offer is the most equitable form of capital raising as it allows all shareholders to proportionately participate in the Bank's capital raising program.

The 1:5.095 BDO rights offer entitled each eligible stockholder to subscribe to one (1) common share for every 5.095 common shares held as of Record Date of 10 January 2017 at an offer price of ₱83.75 per Rights Share. The offer price was computed based on the 15-trading day volume-weighted average price (“VWAP”) of the Bank’s common shares listed on the PSE, at a discount of 23.4%. A total 716,402,886 of Rights Shares were issued pursuant to the offer price and were listed on the Philippine Stock Exchange (PSE) on 31 January 2017.

8.3 Were there other times when BDO raised capital?

- b) Photocopy of 2 valid IDs of the shareholder on record or authorized representative
- c) In addition to a) and b) above, authorized representatives are required to present their representatives IDs and an original authorization letter signed by the shareholder on record.

You may contact BDO’s stock transfer agent, ***Stock Transfer Service, Inc. (STSI)*** to assist you on this. Please refer to the contact details of our stock transfer agent provided in the earlier section on Shareholder Information.

9.3 What should be done if there were a resulting fractional share of EPCIB stock upon conversion to BDO shares given a 1:1.8 exchange ratio?

Any resulting fractional share should have been paid via check payable to the shareholder on record at the rate of ₱44.80 per 1 full share. Checks would have been released together with the new BDO certificates.
