INVESTMENT OBJECTIVE AND STRATEGY

The Fund aims to provide long-term capital growth by investing in a single collective investment scheme called the Target Fund, which is invested in a portfolio of equities and equity-related instruments of China-related companies traded both onshore and offshore China. The Fund's Target Fund is the ChinaAMC China Focus Fund (USD Class with ISIN HK0000352960), formerly China Select Fund (USD Class with ISIN KYG2162H1395). The Fund's benchmark is a blend of the CSI300 Index for the China A Shares and the MSCI China for the non-China A shares.

CLIENT SUITABILITY

A client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

- The BDO China Equity Feeder Fund is suitable only for individual and corporate investors who have aggressive risk appetite and who seek potentially higher returns through Chinese stock market investments but are also aware of the possibility of capital losses that such investments may entail.
- Participation in the Fund shall be open to Filipino citizens, Philippine residents and domestic corporations with capacity to contract and who are not considered US Persons under the US securities and tax laws.
- Participants/trustors are recommended to stay invested in the Fund for more than three (3) years. The Fund is not suitable for short-term investing.

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

Investment Risk. The Target Fund is an investment fund. There is no guarantee of the repayment of the principal. The market value of the underlying investments of the Target Fund may rise or fall.

Liquidity Risk. Possibility to experience losses due to the fund's inability to convert assets into cash immediately or in instances where conversion to cash is possible but a highly disadvantageous price.

Foreign Exchange Risk. Possibility to experience losses due to fluctuations in foreign exchange rates.

Single Country Investment Risk. Investing in China-related companies and in Chinese markets involve certain risks and special considerations not typically associated with investment in more developed economies or markets, such great political, economic, foreign exchange, liquidity and regulatory risks. The concentration of the Target Fund's investments in China-related companies may result in greater volatility than portfolios which comprise broad-based global investments.

All the Fund's investment outlets undergo evaluation in accordance with the Trustee's Investment Policy Manual. Regulatory exposure limits are monitored on a regular basis. The Fund will not use financial derivatives instruments to hedge risks.

RISK FACTORS RELATED TO THE TARGET FUND

The following are the principal risks of investing in the Target Fund:

Investment Risk. There is no guarantee of the repayment or principal. The instruments invested by the Target Fund may fall in **Single Country Investment Risk.** The concentration of the Target Fund's investments in China-related companies may result in greater volatility than portfolios which comprise broad-based global investments.

Counterparty Risk of Access Products. The Target Fund will not invest directly in A Shares but will instead obtain exposure to the A Share market by investing into access products. If an issuer of an access products defaults, the Target Fund may be exposed to potential losses equal to the full value of that access product.

Risk of Limited Access Products. The availability of access products is limited by applicable regulations in China and as a result, the cost of investing in access products is subject to market supply and demand forces.

Risk Associated with the Qualified Foreign Institutional Investor (QFII) System. The current QFII policy and rules are subject to change and any such change could adversely impact the Target Fund's investments in access products.

China Tax Risk. There are risks and uncertainties associated with the current Chinese laws, regulation and practice in respect of capital gains realized by QFIIs on selling of A Shares.

Multi-currency Conversion Risk. The Target Fund will hold investments denominated in currencies different to the base currency of the Target Fund, meaning the Target Fund will be at risk to adverse movements in the foreign currency rates.

Performance Fee Risk. The Target Fund is subject to a performance fee and a unitholder redeeming units may still be subject to the performance fee charge in respect of such units, even though he/she has suffered a loss in the investment capital.

SWITCHING OF THE TARGET FUNDS

♦The Trustee shall have the authority to switch Target Fund in the event of a material change in the Target Fund and as the circumstances warrant including reasons such as: 1) Change in the objective, investment style or risk profile of the current Target Fund; 2) Resignation of fund managers or portfolio management team of the Target Fund; 3) Closure of the Target Fund or its maximum AUM capacity has been reached; 4) Prolonged suspension of subscription/redemption to/from the Target Fund; 5) Change in the Target Fund's fees that will significantly affect the total expense ratio of the Fund; 6) Regulatory change in the jurisdiction where the Target Fund is domiciled that would significantly affect the Target Fund's operations; 7) Significant legal disputes; 8) Market Conditions which, in the reasonable opinion of the Trustee, warrant a change in Target Fund; 9) Investment by the Target Fund in another collective investment scheme; 10) as well as when, in the opinion of the Trustee, the Target Fund has been consistently underperforming vis-a-vis expectations. In case of such switching, the Trustee shall notify the Participants by way of direct written notice and through the form of notices such as: 1) electronic mail; 2) notices posted in the premises of the Trustee and its branches; 3) notification in the Trustee's website. Such notice shall include the ground for the switching as well as the estimated costs to be incurred by the Fund for the switching.

♦Switching of a target fund due to a change in the Target Fund's investment objectives shall be accompanied by a change in the Fund's Declaration of Trust (DOT). No change shall be implemented within thirty (30) calendar days from the initial notification. The switching of the Target Fund will be conducted with due diligence and with the approval of the Trust Committee.

<p style="text-align: center;">NOTICE TO THE PARTICIPANTS OF BDO CHINA EQUITY FEEDER FUND (the “Fund”)</p>

Subject: Switching of the Target Fund

Dear Valued Investors,

Thank you for investing in the BDO China Equity Feeder Fund (CEFF), a UITF structured as a feeder fund that invests in the ChinaAMC China Focus Fund (the “Target Fund”). As a feeder fund, BSP regulations require that the Fund’s investment in the Target Fund should not comprise more than 10% of the Target Fund’s Net Asset Value (NAV).

As of year-end 2017, BDO CEFF’s investment exposure to the Target Fund was already at 9.10% of the Target Fund’s NAV. Moreover, the Fund is expected to continue to grow this year given the positive outlook in offshore equities markets, particularly in China, and a depreciating peso vs. the US dollar. Taking into consideration the above circumstances, BDO Trust and Investments Group, as Trustee of BDO CEFF, has recommended to, and was subsequently given approval by, the Trust Committee to switch BDO CEFF’s Target Fund from **ChinaAMC China Focus Fund** to **BlackRock Global Funds (BGF) China Fund**. Please refer to Annex A for the comparative key features and risks of the existing and the newly approved Target Fund.

The switch to the new Target Fund is deemed necessary to provide the Fund the flexibility to grow in size without breaching the regulatory 10% exposure limit to the Target Fund. Please note, however, that there is no change in the new Target Fund’s investment objectives vis-à-vis the existing Target Fund, thus, no amendment shall be done to the Fund’s Declaration of Trust. In addition, the Fund will not incur any cost as a result of the switch to the new Target Fund.

The switching of the Target Fund shall be conducted with due diligence and will be implemented on **20 March 2018**, subject to the satisfaction/completion of the following conditions: (1) notification to the BSP of the switch to the new Target Fund; (2) account opening process with the new Target Fund (BlackRock); and (3) minimum 30-day notification to BDO CEFF’s Participants.

We advise you to evaluate the effects of the switch to the new Target Fund carefully. If the Fund remains suitable to your investment profile, there is no need for you to do anything. Your decision to remain invested in the Fund will be deemed as your conformity with such action. If this is not the case or you are not in conformity with the above action, you may get in touch with your branch of account and/or Trust Marketing Officer **on or before 20 March 2018** to discuss other BDO UITFs/investment products that may better match your requirements.

If you have any queries or clarifications, please feel free to call us at the following numbers: 878-4265, 878-4035 or 878-4244. You may also email us at investments@bdo.com.ph and we will be glad to assist you.

Thank you for your continued patronage.
