OTHER DISCLOSURES

OUTLOOK AND STRATEGY

The stock market ended the year on a high note soaring to a new record close of 8,558, resulting in a year-on-year gain of 25.1%. As expected, market sentiment turned bullish with the passage of the tax reform bill (TRAIN). Foreign investors quickly turned into aggressive buyers following a heavy sell-off in November. Clearly, the signing of the TRAIN into law proved to be the market catalyst. This is the first tax measure passed by the Duterte administration and is expected to generate at least P90 billion in new net revenues. Key provisions include the reduction in the personal income tax rates but higher taxes on fuel, tobacco and sugar-sweetened beverages. However, it turned out that 3-in-1 coffee is exempted from the higher sugar excise tax and auto prices after taxes are more manageable, benefitting Universal Robina Corporation's (URC) coffee segment and GT Capital Holdings, Inc.'s (GTCAP) Toyota business. URC rose by 13.5% MoM while GTCAP was up by 12.3% MoM. The usual year-end window-dressing activity also helped lift the market to new highs. We expect more buying in the coming weeks with TRAIN's positive impact on the economy and the infrastructure program switching to higher gear.

INVESTMENT POLICY / PROSPECTIVE INVESTMENTS

The Fund may invest in exchange-listed equities and fixed income securities, deposits in the Trustee's bank or in other banks, securities issued or guaranteed by the Philippine Government or the BSP and tradable securities issued by any supranational entity. Subject to BSP guidelines and the Trustee's Trust Committee approval, the Fund may also avail of financial derivative instruments solely for the purpose of hedging risk exposures, as well as invest in other tradable investment outlets/categories as may be deemed suitable for the Fund.
