**OTHER DISCLOSURES****OUTLOOK AND STRATEGY**

The stock market took a plunge in February closing the month at 8,475, down 3.3% MoM. The heightened concern on higher inflation and the weakness in the local currency weighed down market sentiment. The month saw huge foreign outflow amounting to \$296M led by index heavy weight SM Investments Corp. (SM). The share price slid 8.3% MoM and is now down 17.7% from its intra-day high of Php 1,142.00. Among the sectors, the property counter was sold off the most on expectation of higher interest rates. This triggered heavy selling of property leaders such as Ayala Land, Inc. (ALI) and SM Prime Holdings, Inc. (SMPH) which declined by 7.1% and 4.3% respectively. However, banks posted positive returns following BSP's announcement of a 1% cut in the reserve requirement. Such move by BSP is seen to be generally positive for banks. The lack of market moving news may see the Philippine Stock Exchange index (PSEi) to trade range bound. We maintain our "buy on weakness" stance with heavy concentration on buying banking names.

**INVESTMENT POLICY / PROSPECTIVE INVESTMENTS**

The Fund may invest in exchange-listed equities and fixed income securities, deposits in the Trustee's bank or in other banks, securities issued or guaranteed by the Philippine Government or the BSP and tradable securities issued by any supranational entity. Subject to BSP guidelines and the Trustee's Trust Committee approval, the Fund may also avail of financial derivative instruments solely for the purpose of hedging risk exposures, as well as invest in other tradable investment outlets/categories as may be deemed suitable for the Fund.
