## INVESTMENT OBJECTIVE AND STRATEGY

The Fund aims to achieve for its participants mobilization of peso denominated investible funds to provide liquidity and a diversified portfolio of prudently selected highly liquid government securities, deposits and other fixed-income instruments with low price volatilities and a portfolio weighted average life of not more than one year (1) year. The Fund's benchmark is the BSP Published Peso Deposit Rates.

## CLIENT SUITABILITY

A client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

- ♦The BDO Institutional Cash Reserve Fund is primarily suitable for individual and corporate investors with moderate risk appetite and who are looking for liquid investments with yields relatively higher than those of savings and time deposits.
- ♦Participation in the Fund shall be open to any participants with existing investment management accounts (IMA) or trust and other fiduciary accounts (TA) with the Trustee or its subsidiaries.

## KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

**Interest Rate Risk.** This is the possibility for an investor to experience losses due to changes in interest rates. The purchase and sale of a debt instrument may result in profit or loss because the value of a debt instrument changes inversely with prevailing interest rates.

**Market/Price Risk.** This is the possibility for an investor to experience losses due to changes in market prices of securities. It is the exposure to the uncertain market value of a portfolio due to price fluctuations.

**Credit Risk/Default Risk.** This is the possibility for an investor to experience losses due to a borrower's failure to pay the principal and/or interest in a timely manner on instruments such as bonds, loans, or other forms of security, which the borrower issued.

**Reinvestment Risk.** This is the risk associated with the possibility of having lower returns or earnings when maturing funds or the interest earnings of funds are reinvested.

The Fund employs a risk management policy based on modified duration. Modified duration measures the sensitivity of bond prices to interest rate movements. As interest rates rise, bond prices fall. The higher the duration, the more the NAVPU will fluctuate in relation to changes in interest rates. All the Fund's investment outlets undergo evaluation in accordance with the Trustee's Investment Policy Manual. Regulatory exposure limits are monitored on a regular basis. The Fund may also use financial derivative instruments solely for the purpose of hedging risk exposures.

**♦THE UIT FUND IS NOT A DEPOSIT AND IS NOT INSURED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC).**  
**♦RETURNS CANNOT BE GUARANTEED AND HISTORICAL NAVPU IS FOR ILLUSTRATION OF NAVPU MOVEMENTS/FLUCTUATIONS ONLY.**  
**♦WHEN REDEEMING, THE PROCEEDS MAY BE WORTH LESS THAN THE ORIGINAL INVESTMENT AND ANY LOSSES WILL BE SOLELY FOR THE ACCOUNT OF THE CLIENT.**  
**♦THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.**

## OUTLOOK AND STRATEGY

The Consumer Price Inflation (CPI) print for December continued to surge up to a 22-month high of 3.5%. This figure brings the average inflation for the whole year to 2.6% which is slightly higher than last year's 2.5% but still within the Bangko Sentral ng Pilipinas' (BSP) target range of 2%-4%. Despite the continuous rise of the CPI figure, interest rates remain untouched for the month of January, with commercial banks still offering below the 1% level for one to three month tenors. In addition, Philippines' Gross Domestic Product (GDP) fell by 9.5% for the year 2020 as local economic activities were significantly limited due to restrictions imposed to the community due to the COVID-19 pandemic. The BSP is set to review the monetary policy on February 11. ICRF remains invested in time deposits and its duration at the end of January remains within its mandate at 0.26 years.

## INVESTMENT POLICY / PROSPECTIVE INVESTMENTS

The Fund may invest in deposits in the Trustee's bank or in other banks, securities issued or guaranteed by the Philippine Government or the BSP, tradable securities issued by any supranational entity and exchange-listed fixed income securities. Subject to BSP guidelines and the Trustee's Trust Committee approval, the Fund may also avail itself of financial derivative instruments solely for the purpose of hedging risk exposures, as well as invest in other tradable outlets/categories as may be deemed suitable for the Fund.
