## ***Objective and Features of the Fund***

### 1. Objective of the Fund

The Fund aims at investment performance linked to the JPX-Nikkei Index 400\* (Object Stock Index), which means NAV volatility is to correspond with that of the Object Stock Index.

\*The JPX-Nikkei Index 400 is a stock price index which consist of 400 stocks as a general rule, selected from all the common stocks listed in Tokyo Stock Exchange (First Section, Second Section, Mothers, and JASDAQ) according to criteria such as market capitalization, trading value, ROE, and other factors, by Japan Exchange Group, Inc., Tokyo Stock Exchange, Inc., and Nikkei Inc. The JPX-Nikkei Index 400 is calculated with a base date of August 30, 2013, and it assumes the index value on that day to be 10,000 points.

### 2. Features of the Fund

#### ■ Main subject of investment

-Stocks listed in Japanese financial instrument exchanges that are included and are due to be included in the Object Stock Index only.

#### ■ Investment Policy

(i) The Fund is investing only in stocks that are included and are due to be included in the Object Stock Index. The goal of the Fund is to be managed so that the proportion of the number of shares of the individual stocks in the trust assets is held in a proportion that corresponds to the proportion of the number of shares of each component stock in the Object Stock Index, and such proportion is calculated in terms of the component proportion of each component stock in the Object Stock Index, which is calculated using the Object Stock Index's calculation method, and the Fund aims at investment performance linked to the Object Stock Index.

(ii) The Management Company may issue investment instructions to adjust the component of the trust assets to meet policy (i) above:

-If the calculation method of the Object Stock Index is changed or announced to be changed;

-If adjustments to the component proportion of each component stock in the Object Stock Index are made or announced to be made due to causes such as interchanges in the selected stocks in the Object Stock Index, changes in capital in any of the selected stocks in the Object Stock Index, or other similar events;

-If an addition or exchange of this trust is made; or

-In other cases, if necessary to ensure linkage to the Object Stock Index.

(iii) Stocks that are indicated to be invested are stocks which are listed (or due to be listed) in the financial instrument exchanges or registered (or due to be registered) in the Registry of Over-the-Counter Traded Securities and which are issued by the issuing corporations whose issued stocks are included and are due to be included in the Object Stock Index.

However, this indication is not necessary for stocks that are acquired through allotments to stockholders. The stocks which are excluded from the Object Stock Index shall be sold promptly, taking market conditions into consideration, though the stocks may in certain cases not be sold promptly because of the liquidity, etc., of the stocks.

(iv) Notwithstanding provision (i) above, the Fund may make complementary purchases of stock index futures connected with the Object Stock Index or other Japanese stock indexes to keep the performance tracked to the Object Stock Index.

■ Copyright, etc., of JPX-Nikkei Index 400

“JPX-Nikkei Index 400” is a copyrightable work calculated through such methodology as independently developed by Japan Exchange Group, Inc. and Tokyo Stock Exchange, Inc. (hereinafter referred to as “Nikkei”), and JPX Group and Nikkei are the exclusive joint owners of the copyright and other intellectual property rights in both “JPX-Nikkei Index 400” itself and the methodology used to calculate “JPX-Nikkei Index 400”.

The ownership of trademarks and of any other intellectual property rights with respect to marks representing “JPX-Nikkei Index 400” belongs to JPX Group and Nikkei.

JPX Group and Nikkei do not sponsor, support, sell or market the Fund. JPX Group and Nikkei have - besides granting a license to licensees such as investment trust management companies, etc. (hereinafter referred to as the “Licensee”) to use certain trademarks and to use the name “JPX-Nikkei Index 400” for the Fund – no connection with the Fund. The license agreement between the Licensee and both JPX Group and Nikkei does not provide any rights to any third parties.

The Fund is managed exclusively by investment trust management companies, etc. at their own risk, and neither JPX Group nor Nikkei shall assume any obligation or responsibility for the management or the transactions of the Fund. JPX Group and Nikkei are not responsible for the accuracy and the calculation of the Fund or the data contained therein.

JPX Group and Nikkei have no obligation to publish “JPX-Nikkei Index 400” continuously and shall not be liable for any errors, postponements, interruptions, suspensions or cessations of the publication of “JPX-Nikkei Index 400.”

JPX Group and Nikkei shall have the right to change the contents of “JPX-Nikkei Index 400”, such as the component stocks and the calculation methods, etc., and shall have the right to suspend or cease the publication of “JPX-Nikkei Index 400” without owing any liability to the Licensee or any other third party.

■ Investment Restrictions

Investment ratio in stocks	There is no restriction on the investment ratio in stocks.
Investment ratio in assets denominated in foreign currencies	The investment ratio in assets denominated in foreign currencies shall be less than or equal to 20% of the total net asset value of the trust assets in the Fund.
Use of derivatives	Use of derivatives is allowed (i) until the Fund begins investing in stocks in accordance to the investment policy, or (ii) for purposes of managing investment performance linked to the Object Stock Index. In such cases, the Fund may complementarily purchase futures connected with the Object Stock Index or other Japanese stock indexes.

■ Distribution Policy

-Dividends are due on the 7<sup>th</sup> of April and October of each year.

-As a general rule, the full amount of dividends and other income arising from the trust assets are distributed after deduction of expenses. However, the amount of dividends that is payable may in some circumstances amount to zero. Even if any profits are realized from the sale and purchase of individual stocks, no dividends shall be paid.

\* There is no guarantee on the payment or the amount of future dividends.

**Investment Risks**

1. Factors that contribute to NAV volatility

The NAV of the Fund is subject to fluctuations in the prices of the securities in which the Fund invests. ~~All profits and losses arising from fund management are borne by the investors. Any principal invested in the Fund by investors is therefore not guaranteed. Investors may incur a loss and the value of their investment principal may fall below par as the result of a decline in the NAV. The investment trust differs from a savings deposit.~~

Stock Price Fluctuation Risk	NAV of the Fund may be influenced by stock price fluctuations since the Fund invests in stocks.
------------------------------	---

\* The factors that contribute to fluctuations in the NAV are not limited to those mentioned above.

<<Primary Factors for Discrepancies between the Object Stock Index and NAV>>

The fund aims at an investment performance for NAV volatility linked to that of the Object Stock Index; however, in managing the investment assets, we cannot guarantee that movements will be identical to those of the Object Stock Index primarily for the following reasons:

- (i) We cannot make individual stocks' incorporated ratio in the Fund completely the same as the component proportion of component stocks in the Object Stock Index.
- (ii) The Fund may incur market impact or bear costs such as brokerage commission, etc., by the trading of individual stocks, such as when portfolio adjustments are made due to changes of the component stocks in the Object Stock Index, capital transfers of any individual stocks in the Object Stock Index, partial exchanges of actual stocks or any other causes.
- (iii) When cash remains as part of the trust assets as a result of additional issue partly made by cash, dividends obtained from individual incorporated stocks, or rights handling, etc.
- (iv) There may be a price spread between the sale price and the appraised value of the object stocks.
- (v) When futures transactions are made, there may be a disparity between the prices of the forwards and the Object Stock Index.
- (vi) The Fund bears certain costs, such as trust fees.

\* The factors that contribute to the discrepancy between the Object Stock Index and NAV are not limited to those listed above.

2. Additional Considerations

The provisions stipulated in Article 37-6 of the Financial Instruments and Exchange Act (so-called "cooling off") are not applicable to subscriptions to the Fund.

- Management based upon the investment policy may not be achieved depending on funding trends, market trends, etc., or unexpected circumstances.
- The interest/redemption payment from the issuers of the securities which are incorporated into the Fund may be delayed.

- Transactions pertaining to the Fund, such as an investment in securities and contracts related to such fund, may default because of the bankruptcy, or other similar event, occurring to a counterparty.
- NAV of the Fund and the Object Stock Index may differ because of costs and other factors. It is not guaranteed that the Fund's investment performance will track or exceed the Object Stock Index.
- The market price of the Fund is based upon supply and demand, as calculated through competitive buying and selling on the exchange. Therefore, market price may differ from the NAV itself.
- Please be aware that the Fund will be delisted and the trust will be terminated if the number of Portions of beneficial interest falls below 100,000 for 20 successive business days.

### 3. Risk Management System

The Management Company examines Fund performance and oversees management risks by having established a committee to take charge of these matters.

- Examination of the Fund performance  
The committee reports and deliberates on the results of periodic examinations (analysis/evaluation) of the investment trust's trust asset performance results.
- Administration of management risk  
The committee identifies and manages management risk, and, based on its findings, provides guidance to the appropriate divisional management and any other relevant sections regarding rectification measures for appropriate administration.

4. Risk Quantitative Comparison (end of May 2012 to the end of April 2017, per month)  
 < The Fund's annual return and the change of dividend re-investment net asset value >

-  Fund annual return (Right Axis)
-  Object Stock Index annual return (Right Axis)
-  Dividend re-investment net asset value (Left Axis)

\* The dividend re-investment net asset value is calculated by deeming that the dividend before income taxes is re-invested. The dividend re-investment net asset value is set by indexing the original principal as 10,000 (per 1 Portion), and is displayed from the end of the month that includes the target date.

\* The annual return displays the return in a single year at the end of each month from August 2014 to April 2017. Furthermore, the Object Stock Index annual return is displayed until December 2014.

Furthermore, the annual return of the Fund until December 2014 is calculated using the Object Stock Index of the Fund.

\* The above numbers may not apply as of the account closing day.

\* The Fund uses the return of the dividend re-investment net asset value.

# The dividend re-investment net asset value may occasionally differ from the actual basis price due to the dividend being deemed re-invested before the application of income taxes.

\*These expenses and fees above are paid out of the trust assets when they are incurred. These expenses and fees vary according to management and other conditions, so details of rates and upper limits cannot be provided ahead of time.

■ Tax Treatment

- Tax Treatment is applied at the times listed below.
- The following chart represents tax rates on individual investors at the time of tax withholding.

The tax rate may differ according to the taxation method, etc.

Time	Items	Tax
Receipt of distribution	Income tax, special reconstruction income tax and local tax	Taxed as dividend income 20.315% of income distributions
Sales and exchanges	Income tax, special reconstruction income tax and local tax	Taxed as capital gains 20.315% of the profit on sales and exchanges

\*The foregoing descriptions are as of the end of April 2017. Therefore, the tax rates may change in the event that tax laws are revised.

\*If you choose the Japanese version of the Individual Savings Account (known as “NISA”):

“NISA” is the (Nippon) Individual Savings Account, a tax exemption structure pertaining to a listed stock or a publicly offered stock investment trust etc. If you choose to use the NISA structure, income gains and capital gains from newly purchased ETFs etc., for investments of up to a specified amount each year, will be tax exempt for a specified term. In order to be eligible for NISA, certain conditions, such as the requirement that the NISA account be opened by an investor with an eligible distributing company, must be met. Investors should make sure whether or not dividends can be received tax-exempt, as this may depend on the dividend payment method. Please confirm this with the distributing company for further details.

\*The aforementioned descriptions do not apply to Japanese corporations.

\*We recommend that investors consult a tax or similar specialist for details of tax treatment.
