INVESTMENT OBJECTIVE AND STRATEGY

The Fund aims to achieve long-term capital appreciation by investing in a diversified portfolio of attractively priced exchange-listed stocks with sustainable dividend yields. The Fund's benchmark is the Philippine Stock Exchange Composite Index (PSEi).

CLIENT SUITABILITY

A client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

- ♦The BDO Sustainable Dividend Fund is primarily suitable for individual and corporate investors with aggressive risk appetite and who seek potentially higher income from dividends as well as from stock price appreciation but are also aware of the possibility of capital losses that such investments may entail.
- ♦Participants/trustors are recommended to stay invested in the Fund for more than three (3) years.

OUTLOOK AND STRATEGY

The stock market was off on a strong note in November, hitting another new record intra-day high of 8,605. However, this subsequently prompted investors, particularly on the foreign side, to book gains. Foreigners were net sellers for the first time in eight (8) months despite the better-than-expected third quarter GDP print of 6.9% versus the consensus estimate of 6.6%. Even the Senate's approval of their version of the tax reform program failed to perk up the market. Much of the market weakness stemmed from lackluster 3rd quarter earnings results as well as the sell-off in telco stocks on continued talks regarding the entry of a third player. Globe was down 10% month-on-month while PLDT declined by 13% during the same period. While there are episodes of profit taking/re-balancing that are currently going on, we maintain our positive long-term outlook in the stock market. The passage and implementation of the tax reform bill should pave the way for the equity market to move to higher ground and we see this largely benefiting sectors like property, banks, retail and infrastructure/construction.

INVESTMENT POLICY / PROSPECTIVE INVESTMENTS

The Fund may invest in exchange-listed equities and fixed income securities, deposits in the Trustee's bank or in other banks, securities issued or guaranteed by the Philippine Government or the BSP and tradable securities issued by any supranational entity. Subject to BSP guidelines and the Trustee's Trust Committee approval, the Fund may also avail of financial derivative instruments solely for the purpose of hedging risk exposures, as well as invest in other tradable investment outlets/categories as may be deemed suitable for the Fund.
