INVESTMENT OBJECTIVE AND STRATEGY

The Fund aims to achieve long-term capital appreciation by investing in a diversified portfolio of attractively priced exchange-listed stocks with sustainable dividend yields. The Fund's benchmark is the Philippine Stock Exchange Composite Index (PSEi).

CLIENT SUITABILITY

A client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

- ♦The BDO Sustainable Dividend Fund is primarily suitable for individual and corporate investors with aggressive risk appetite and who seek potentially higher income from dividends as well as from stock price appreciation but are also aware of the possibility of capital losses that such investments may entail.
- ♦Participants/trustors are recommended to stay invested in the Fund for more than three (3) years.

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

Liquidity Risk. This is the possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a loss.

All the Fund's investment outlets undergo evaluation in accordance with the Trustee's Investment Policy Manual. Regulatory exposure limits are monitored on a regular basis. The Fund may also use financial derivative instruments solely for the purpose of hedging risk exposures.

♦THE UIT FUND IS NOT A DEPOSIT AND IS NOT INSURED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC).
♦RETURNS CANNOT BE GUARANTEED AND HISTORICAL NAVPU IS FOR ILLUSTRATION OF NAVPU MOVEMENTS/FLUCTUATIONS ONLY.
♦WHEN REDEEMING, THE PROCEEDS MAY BE WORTH LESS THAN THE ORIGINAL INVESTMENT AND ANY LOSSES WILL BE SOLELY FOR THE ACCOUNT OF THE CLIENT.

OUTLOOK AND STRATEGY

The PSEI finally ended the month on a strong note after five 5 consecutive months of decline. The index surged 478 points or 6.6% month-on-month to close at 7,672. Both local buying and foreign inflows helped pushed the index to the 7,700 level, a solid 11% recovery from the recent low of 6,923 in mid-July. The month also saw the peso strengthening to P53.10 versus the June level of P53.37. Market sentiment turned positive after the BSP signaled strong policy action in the next Monetary Board meeting on August 9 with inflation hitting 5.2% in June and the peso falling to its 12-year low. Trading volume, however, remained low and July still posted a net foreign outflow of \$49M. It seems that investors have priced in all the negative news and are slowly deploying funds back to the market while foreign funds took quick profits in developed markets and did some bargain hunting in Asian emerging markets. Given this view, expect the market to keep testing the 7,900 resistance though it seems unlikely that a run-up towards the 8,000 yearend target will be in the cards this early.

INVESTMENT POLICY / PROSPECTIVE INVESTMENTS

The Fund may invest in exchange-listed equities and fixed income securities, deposits in the Trustee's bank or in other banks, securities issued or guaranteed by the Philippine Government or the BSP and tradable securities issued by any supranational entity. Subject to BSP guidelines and the Trustee's Trust Committee approval, the Fund may also avail of financial derivative instruments solely for the purpose of hedging risk exposures, as well as invest in other tradable investment outlets/categories as may be deemed suitable for the Fund.
