INVESTMENT OBJECTIVE AND STRATEGY

The Fund aims for capital preservation and income generation by investing in a diversified portfolio of fixed income instruments with average duration of less than one (1) year. The Fund's benchmark is the 91-day T-Bill rates.

CLIENT SUITABILITY

A client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

- ♦The BDO Short Term Fund is primarily suitable for individual and corporate investors with moderate risk appetite and who are looking for investments with yields relatively higher than those of savings and time deposit accounts.
- ♦Participants/trustors are recommended to stay invested in the Fund for at least one (1) year.

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

Interest Rate Risk. This is the possibility for an investor to experience losses due to changes in interest rates. The purchase and sale of a debt instrument may result in profit or loss because the value of a debt instrument changes inversely with prevailing interest rates.

Market/Price Risk. This is the possibility for an investor to experience losses due to changes in market prices of securities. It is the exposure to the uncertain market value of a portfolio due to price fluctuations.

Credit Risk/Default Risk. This is the possibility for an investor to experience losses due to a borrower's failure to pay the principal and/or interest in a timely manner on instruments such as bonds, loans, or other forms of security, which the borrower issued.

Reinvestment Risk. This is the risk associated with the possibility of having lower returns or earnings when maturing funds or the interest earnings of funds are reinvested.

The Fund employs a risk management policy based on modified duration. Modified duration measures the sensitivity of bond prices to interest rate movements. As interest rates rise, bond prices fall. The higher the duration, the more the NAVPU will fluctuate in relation to changes in interest rates. All the Fund's investment outlets undergo evaluation in accordance with the Trustee's Investment Policy Manual. Regulatory exposure limits are monitored on a regular basis. The Fund may also use financial derivative instruments solely for the purpose of hedging risk exposures.

- ♦THE UIT FUND IS NOT A DEPOSIT AND IS NOT INSURED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC).
- ♦RETURNS CANNOT BE GUARANTEED AND HISTORICAL NAVPU IS FOR ILLUSTRATION OF NAVPU MOVEMENTS/FLUCTUATIONS ONLY.
- ♦WHEN REDEEMING, THE PROCEEDS MAY BE WORTH LESS THAN THE ORIGINAL INVESTMENT AND ANY LOSSES WILL BE SOLELY FOR THE ACCOUNT OF THE CLIENT.
- ♦THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.

OUTLOOK AND STRATEGY

With the sharp decline in global fuel prices and normalized supply conditions of rice and other foodstuff, November CPI slowed down significantly to 6% from a nine-year peak of 6.7% in the previous two months. The Bangko Sentral ng Pilipinas (BSP) forecasts the inflation average rate to settle down to the low 3% range this 2019 and down to 3.0% flat next year. In line with this, the BSP left its policy rate unchanged at 4.75% during its December Monetary Board meeting and will most likely do so this year after raising it by a cumulative 175 basis points since May 2018. Meanwhile, time deposit rates of commercial banks spiked to 6.75% for 1-3 month placements and towards 6% for less than a year as part of their yearend deposit-raising exercise. The fund manager increased investments in commercial bank bonds for the STF. The fund remains invested in a mix of time deposits, corporate bonds, and commercial fixed rate notes. As of end-December, the fund's duration was at 0.78 years.

INVESTMENT POLICY / PROSPECTIVE INVESTMENTS

The Fund may invest in deposits in the trustee's bank or in other banks, securities issued or guaranteed by the Philippine Government or the BSP, tradable securities issued by any supranational entity and exchange-listed fixed income securities. Subject to BSP guidelines and the Trustee's Trust Committee approval, the Fund may also avail of financial derivative instruments solely for the purpose of hedging risk exposures, as well as invest in other tradable investment outlets/categories as may be deemed suitable for the Fund.
