## IV. Stock Information

### On what stock exchange is DHI listed and traded and what is its stock symbol?

DHI's common shares of stock are listed and traded on the Philippine Stock Exchange under the symbol "DHI" (previously BLFI).

Currently, the stock is not being traded since Feb 14, 2020 when the PSE imposed a trading suspension on DHI's shares due to an SEC Order of Suspension against DHI issued on February 13, 2020, which suspended DHI's Registration Statement (and Permit to Sell Primary Securities), the lifting of which is subject to the submission of an Amended Registration Statement. Such order was issued in light of the Share Purchase Agreement dated 24 January 2020 entered into by BDO Unibank to sell its controlling stake in DHI to third parties and the subsequent amendment of DHI's primary business to a holding company, hence, the registration Statement is no longer accurate and SEC required the filing of an Amended Registration Statement.

Subsequently, DHI filed its Motion for reconsideration of the Order finding no sufficient grounds since DHI did not have any ongoing offering to sell its securities to the public. Hence, the Company sought SEC's guidance on the required Amended Registration Statement, which is still pending resolution.

### What are the types of shares issued by DHI and what are the basic features?

DHI's capital structure is composed of common and preferred shares. The common shares has a par value of P1 while the preferred shares has a par value of P100.

### How much is DHI's authorized capital stock and its composition? Of the authorized number of shares, how many are issued outstanding?
